

REMARKS

Reconsideration of the subject application is respectfully requested.

Applicants note with appreciation the indication of allowability of Claims 7, 8, 11, 13, 14, 26, and 28. It is further noted that each of allowable claims 7, 11, 13, and 26 contain the same patentable subject matter, which is “wherein the image data words of the modified set of image data words are made available to the electro-optical display serially, and the contiguous pixels whose image data words are substituted precede the image data words for which they are substituted.” Therefore, in order to expedite prosecution of the subject application, this limitation has been added to each of independent Claims 1, 18, and 20, and claims 7, 11, 13, and 26 have been cancelled. Claim 14 has also been cancelled because it is now redundant with Claim 8.

This Response After Final Rejection is believed to place this application in condition for allowance and its entry is therefore believed proper Under 37 CFR §1.116. Accordingly, entry of this Response After Final Rejection, as an earnest attempt to advance prosecution and reduce the number of issues, is respectfully requested. Should the Examiner believe that issues remain outstanding, the Examiner is respectfully requested to contact applicants' undersigned attorney in an effort to resolve such issues and advance the case to issue.

Respectfully submitted,

/Mark P. Watson/
